

*We develop and produce
the **lightweight** components of
tomorrow – from aluminium*

As an innovative medium-sized company, **TRIMET Aluminium SE** develops, produces, recycles, casts, and sells modern light-metal products made out of aluminum from eight locations in Germany. Our 1,900 employees ensure, together with our customers, that automobiles are more economical, aircraft are lighter, wind turbines and electricity plants are more efficient, buildings are more modern, and packaging is more ecological.

TRIMET – **Aluminium** lightens your life
