ACTION

TRIMET Aluminium SE follows the guiding principle of sustainability as defined by the United Nations in the 17 global goals for sustainable development.

*Together with you, we develop and produce the **lightweight** components of tomorrow – from **aluminium***

As an innovative, medium-sized family business, TRIMET Aluminium SE develops, produces, recycles, casts and sells modern light metal products made of aluminum. More than 2,400 employees work for you around the clock at nine locations. Together with you, we ensure that cars become more economical, airplanes lighter, wind turbines more efficient and packaging more ecological. With climate-friendly materials, a commitment to society and the environment, and as a flexible partner and reliable supplier of high-quality aluminum formats, TRIMET is making its contribution to a sustainable economy. When for you too? Get in touch with us.
