# Casting Knowledge.
# In a Software.

**MAGMA** is a worldwide leader in developing and providing software for casting process simulation and virtual optimization. **MAGMA** stands for robust cast solutions and for reliable partnerships with the metal casting industry, including casting designers and buyers.

**MAGMA's** range of products and services includes the simulation software **MAGMASOFT®** **autonomous engineering**, for virtual designs of experiments and autonomous optimization of casting processes, as well as comprehensive engineering services for casting design and process optimization.

## Key Facts

¬ Founded in 1988

¬ Headquarter in Aachen, Germany

¬ Offices and subsidiaries in the USA, Singapore, Brazil, Korea, Türkiye, India, China and the Czech Republic

¬ Engineering services for the design and optimization of casting processes

¬ MAGMAacademy offers comprehensive further education
